

Kinetico drinking water filters AquaTaste, AquaGuard and AquaScale

AquaTaste granular activated carbon filter

This popular filter is ideal to improve the aesthetic qualities of water including taste, odour, colour, and the removal of particulate matter etc. It is rated at 5 micron.

AquaGuard carbon block filter

This is a very fine one micron filter designed to improve all of the aesthetic qualities of water (available from the AquaTaste filter) plus VOC's, heavy metals and pathogenic micro-organisms.

The main features of both filters are:

- ◆ MACguard™ system measures water consumption and shuts off cartridge after it has filtered 1850 Litres of water. For most families this represents a year plus use.
- ◆ Quick disconnect (twist and remove), sanitary filter cartridges.
- ◆ PureMometer™ filter life indicator shows remaining capacity at a glance.
- ◆ Drinking tap, tubing and fittings included.
- ◆ They are tested and certified by NSF International against the requirements of ANSI/NSF Standard 42 for taste, odour and chlorine reduction.

Benefits:

- ◆ Programmed maintenance eliminates over-use.
- ◆ No mess, simple filter changes.
- ◆ Easy to read meter eliminates capacity guessing.
- ◆ Quality appearance above and below the sink.
- ◆ Remote sink / tap installations.
- ◆ Can be used for refrigerator dispensers, ice makers and coolers.

The AquaTaste filter will remove:

- ◆ Unwanted taste & odour problems in water.
- ◆ Sediment.
- ◆ Chlorine.

The AquaGuard filter will remove:

- ◆ Unwanted taste & odour problems in water.
- ◆ Sediment.
- ◆ Chlorine.
- ◆ Volatile Organic Compounds (VOC's) like pesticides and insecticides.
- ◆ Heavy Metals such as Lead.
- ◆ Cysts (microscopic single cell parasites) like giardia and cryptosporidium.

AquaScale reducing carbon filter

This is a filter designed to replace a kitchen jug filter. It will reduce water hardness as well as improving the aesthetic qualities of water. Cartridges will last 3 to 7 months depending on use and level of local water hardness.

The main features of the AquaScale filter are:

- ◆ Quick disconnect (twist and remove), sanitary filter cartridges.

- ◆ Good looking product whether installed above or below the sink.
- ◆ Remote sink / tap installations.
- ◆ Can be used for refrigerator dispensers, ice makers and coolers.
- ◆ Drinking tap, tubing and fittings included.

Benefits

- ◆ Reduces scale build up in your kettle
- ◆ No mess, simple filter changes.
- ◆ Quality appearance above and below the sink.
- ◆ Remote sink / tap installations.
- ◆ Save money - never buy bottled water again.
- ◆ No more inconvenient filter jugs which can be slow and costly for replacement cartridges.

The AquaScale filter will remove

- ◆ Unwanted taste & odour problems in water.
- ◆ Chlorine.
- ◆ Hardness minerals (limescale).

Technical specification of all three filters

Service flow rate - AquaTaste: 3.75 L/min
- AquaGuard: 2.85 L/min
- AquaScale: 2.73 L/min

Capacity - AquaTaste & AquaGuard: 1850 litres
Capacity - AquaScale: Variable depending on hardness of the local water supply.

Min/max operating temperature: 2°C - 38°C

Min/max operating pressure: 1.4 - 8.3 bar

Inlet/outlet connection: 1/4" push fit

Connection fitting:

15mm self piercing saddle valve with check valve

Shipping weight: 5kg

Dimensions (7000 & 9000):

425mm(h) x 155mm(w) x 100mm(d)

Dimensions (9000): 410mm(h) x

155mm(w) x 100mm(d)

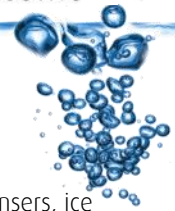

Tap choice: see leaflet on pillar and tri-way taps.

Warranty: one year.

AquaTaste replacement cartridge:
part No. 9306

AquaGuard replacement cartridge:
part No. 9308

AquaScale replacement
cartridge:
part No.11609

PureMometer™ shown above available on the AquaTaste & AquaGuard filter

KINETICO drinking water filters are tested and certified under US Standards 42. These Standards are now being recognised world wide.
